*But as many as received Him, to them gave He power
to become the sons (children) of God... John 1:12*

This year's Christmas lesson is about a young girl named Turea who returns from school to visit her family. She has become a believer in Jesus and is afraid to tell anyone. As we use John 1:12 to teach the children that "God wants you to boldly tell others about Jesus", they learn the importance of sharing what they hear each week in Released Time Class with their family and friends. Our classes continue to grow as boys and girls invite friends to attend class, so they can also learn how to become a *child of God*!

What about you, dear friend? Are you boldly telling those in your "circle of influence" that you are a *child of God*? Christmas is the perfect time to share this great message! Your prayers and support make it possible for us to teach the truth of God's Word to the boys and girls in our county. THANK YOU and may God richly bless you this Christmas! Sue

One way God said to get to Heaven, Jesus is the only way...

This is the song the students in our classes have been singing each week, and it fits perfectly since we are teaching the life of Christ this year. Sadly, more and more children know less & less about Jesus, and how He is the only way to Heaven. When the question was asked during our first class, "What is the one way to Heaven?" A child responded, "Going to church on Sundays & Wednesdays, learning about God, and not doing bad things." What a privilege it is to share with them that we don't need to work our way to Heaven, but instead, Jesus has provided a way for us by dying on the cross to pay for our sins. Hallelujah!

We began the year by teaching about His humble birth, and we will end the year with His death, resurrection, and coming again. Please continue to pray for these precious children, that they trust Jesus as their Savior, grow in their faith, and point others to the Way, the Truth, and the Life.

May we all take time to reflect on the Reason for the season.

Merry Christmas! Becca
